

Near-Death Experiencer Retreat

The first Near-Death Experiencer Spiritual Retreat was held the spring of 2006. The retreat was the vision of Linda Jacquin a two time experiencer. Her vision was to make a retreat by experiencers for experiencers. The first year was such an incredible event that it has continued annually ever since. Now on its fourth year it evolves by building from the earlier events. The first year focused on the challenges NDErs faced after they returned. The second year's focus was around solutions for those challenges. Last year we turn our attention to the gifts received. This year were looking at the Mission/Purpose received from the near-death experience and how we incorporate them into our every day lives.

We provide a balance of both a structured program and unstructured time throughout the retreat so that people can spend time alone with their thoughts or connect with others as desired.

During the structured program you will hear from other near-death experiencers about their experiences, what they learned from them, about their transformations, challenges and aftereffects. Meditative techniques, Tai Chi, integration methods, and contending with difficulties will also be shared.

No attendee will be required to share their experience or thoughts. Whether you choose to share or not, your choice will be respected and supported.
