

### Near-Death Experiencer Retreat

The first Near-Death Experiencer Spiritual Retreat was held the spring of 2006. The retreat was the vision of Linda Jacquin a two time Near-Death Experiencer. Her vision was to make a retreat by experiencers for experiencers. The first year was such an incredible event that it has continued annually ever since. Now it has evolved by building from the earlier events. Each year the retreat focused on the challenges NDErs faced after they returned. The retreat shares solutions for those challenges. We also turn our attention to the gifts received the Mission/Purpose and how we incorporate them into our every day lives. We attempt connecting to the Love in a peer to peer sharing environment.

We provide a balance of both a structured program and unstructured time throughout the retreat so that people can spend time alone with their thoughts or connect with others as desired.

During the structured program you will hear from other near-death experiencers about their experiences, what they learned from them, about their transformations, challenges and aftereffects. Meditative techniques, Tai Chi, integration methods, and contending with difficulties will also be shared.

No attendee will be required to share their experience or thoughts. Whether you choose to share or not, your choice will be respected and supported.

## Retreat information

The retreat is open only to Near-Death Experiencers who wish to come together in a peaceful setting to talk about issues related to coming back.

The retreat gives you time in a peaceful, safe, and healing environment to rest, reflect, learn, meditate, and share with other experiencers who are supportive and understanding of all the changes and challenges that take place following an NDE.

Mercy Retreat Center Provides 70 Beautiful acres with walking paths and a Labyrinth. You can chose from one and two person rooms with private or adjoining baths. There are twin beds in both the single and two person rooms. All three meals are provided buffet style in the dining room. There are meeting rooms and quiet places for reflection. The Mercy Center is a

## Respecting Your Privacy, Personal Space and Viewpoints.

At the Experiencer retreat, we aim to create a clear, protected, personal space where everyone's reflections and experiences can safely and privately unfold without proselytizing, judgement or disclosure beyond the retreat.
